Covelo Girl's Recovery Is Certain—Latest Report

Special Correspondence of The Press

COVELO, July 16.—"Gadabout" seems to be the best expression for this writer at the present time, as my weekend has consisted chiefly of just that, and in so doing I am missing many local items. However I mean to add to this column some news that will be of interest. After a month in Oakland I was called to the Upper Lake Hospital Sunday last by the serious illness of L. J. Lane. Driving into Covelo Wednesday evening Mrs. Frank Brown and her lovely infant son accompanied me from the Dr. J. E. Mooy residence at Nice. Back at Upper Lake, around the post-office I meet many former Round Valleyites — Henry Bucknell, Ranger and Mrs. Floyd Long, Irvin Crabtree, Smith Card, Felix Barney, Mr. and Mrs. Warren McCombs and Miss Verna McCombs — Warren McCombs is head of the new CCC Camp recently opened near Upper Lake.

Husband To Hospital.

Saturday I moved L. J. Lane to San Francisco for hospitalization and was accompanied by Mrs. J. B. Baker, of Upper Lake, to Piedmont for a two weeks' sojourn. I had been a guest in her lovely home while at Upper Lake. To avoid the long detour out of Ukiah we took the Lakeport to Hopland mountain highway, which proved to be a most beautiful scenic drive.

News Was Alarming.

In San Francisco I was stunned when a telephone call told me of the sad misfortune which called Mr. and Mrs. Clifford S. Foster to the San Francisco Harbor Emergency Hospital. I am quoting what The Oakland Tribune writes: "Before attempting to take her own life Miss Beulah Vie Foster, 20, a disillusioned girl from Mendocino county, hamlet of Covelo, wanted one last look at beauty. So she strolled about Treasure Island, then boarded the Key System ferry Yerba Buena for her rendezvous with death. She dived from the stern of the ferry as it churned toward San Francisco. Someone saw her in the gathering dusk and spread the alarm. A boat was immediately put over the side and picked her up. At the Harbor Emergency Hospital physicians said she would recover."

Known And Liked.

Miss Foster is the charmingly delightful and brilliant daughter of Mr. and Mrs. C. S. Foster, a Round Valley high school graduate with exceptional ability. Last year she enrolled in San Francisco State College and with excess studies and strong ambition she wore her physical strength to the breaking point and she was treated at Stanford

ELBOW'S HUNCH BRINGS DEATH

Fatal Accident Happened Friday At Laytonville

When a passenger in an auto, in trying to emphasize what a good time he and his companion were going to have, struck the arm of the driver with his elbow it caused the machine to swerve and, before it could be controlled, crash off the highway, become a wreck, kill the man who had used his elbow to illustrate what was to follow and seriously injured the driver and owner of the car.

The Two Involved.

Forrest P. Gunnarr, who owned the machine in which the two men were riding and who owns a general store at Laytonville, had as his companion Jack Moore, a man about 40 years of age and a worker at Camp Farley. They were just south of Laytonville when the arm of Mr. Gunnarr was struck by the elbow of Mr. Moore with the fatal result which immediately followed.

GOES FOR TREATMENT

Mr. and Mrs. M. A. Carpenter are leaving for Van Nuys where Mrs. Carpenter will take treatments at The Berry Institute, an institution famous for the wonders it has done people who have suffered spinal injuries. Everyone here who has followed the brave fight made by Mrs. Carpenter will hope she may get much aid from her stay in the south. Rarely has a person received such united sympathy and so many hopes for recovery been expressed as for Mrs. Carpenter. More than two years ago Mr. and Mrs. Carpenter were in an automobile wreck in Nevada, at which time Mrs. Carpenter suffered a fractured spine.

Spongy ground, so states the superintendent of construction of the highway crew south of town, caused a bulldozer to crash down into the earth and break gas and water mains south of town. The accident happened Friday night and residents of that section were without water and gas six hours

Camps Had Kick.

A detour, which started just far enough south to cut off several auto courts and thus deprive them of patronage, was put in operation a week in that part of town. The detour sent cars towards Talmage and back over the old county road that passes the Thomas orchard.

WILLITS-FORT BRAGG ROAD A HIGHWAY NOW

Fine Work By Supervisors Reflected At This Time

NOW IS BEING OILED

Supervisor Bittenbender Complimented On The Work

Special Correspondence of The Press

WILLITS, July 15.—Ever since he was elected supervisor Duane Bittenbender has been making the Willits-Fort Bragg highway one of his major road projects. For several years large WPA crews have been employed most of the time cutting back points, widening and leveling the highway and Mr. Bittenbender now has a crew oiling about two miles of the newly reconstructed road and it is planned to oil the remaining portion as far as the James bridge, a distance of about seven miles.

Coast Supervisor Does Part.

Supervisor John Pesula and his successor Andy Johnston had also provided some splendid work on this highway which lies in the Fourth district and when the improvements now under way are completed this highway will be up to the standard required by the State and it will probably be included in the state system as a secondary highway.

Willits Can Entertain Crowds.

Willits entertained the largest crowd in its history during the Frontier Days celebration last week. There were actually thousands of visitors and Main street looked almost like Market street, San Francisco. On the Fourth there were 3000 spectators at the Rodeo and the management is certain it will clear several hundred dollars for its efforts. Frontier Days is sponsored by the Willits Fire Department and the members donate their time and all the net proceeds are used for civic betterment.

Police Were Alert.

During the celebration Chief Jake Thom and his regular force and deputies were kept busy. No attention was paid to harmless drunks and they were hauled to the bastile and allowed to sleep their jag off and then turned loose.

A Purse Was Lifted.

Chief Thom arrested Fred Wilson, 45, for stealing a purse from one of the Albertinum School summer camp girls. She was waiting at the depot when the theft was made and immediately reported the loss. Mr. Wilson was taken before Judge A. M. Sacry and admitted the theft and was then sentenced to 30 days in the county jail.

Woman Got Belligerant.

Emma Quarteroni went on the warpath and was arrested for being drunk and disorderly after she had attacked a woman from Humboldt county on one of our streets. She was turned over to the sheriff's office and taken to the detention home but that night she made her escape. A warrant has been issued for her arrest by Judge Sacry.

"Fifth Columnist" Got Mean.

Nicholas Johnson, a visitor, was loud in his praises of Adolph Hitler while drinking at one of

PRESS WANTADS RECOVER PURSE

Last week a San Francisco woman lost a purse containing about $30 in currency and some silver, together with valuable jewelry. The purse was brought to The Republican Press by Miss Giovanna Bricarcelli, who found it on the street. Later the purse was returned the owner, who offered Miss Bricarelli a reward, which the young lady declined to accept.

Horseback Trip To Be Next Big Affair

There is still time to make reservations for the no-host riding party Sunday, July 21. The group will gather at the courthouse promptly at 7 a.m. and proceed to Vichy Springs for breakfast at eight o'clock, followed by several hours of riding in the hills about the Springs. The outing promises to be lots of fun. Breakfast will be 50 cents, and the charge for horses will be $2. Friday is the last day to make reservations. Get in touch with Dr. E. C. Morris not later than that date.

SIDELIGHTS OF SADNESS TO CONTINUE TO BE PUBLISHED

Arthur Cayor, who frequently mentions A. R. O'Brien in his widely read column "Behind The News," which appears daily in The San Francisco News, the other day gave the writer a nice tumble when he said:

"MR. O'BRIEN TELLS A STORY"

"The ousting of A. R. O'Brien from the State Prison Board likely will cease a unique series of anonymous prison stories Mr. O'Brien has run for years in his Ukiah paper. But, if it's the wind-up, he has put a cracker on the end.

"The story starts with the small town romance of a Missouri school teacher and a bank clerk with a birthmark. Their son was fatherless in more ways than one, for by the time he was born the father had disappeared. The boy, too, bore the mark. The stern grandfather . . . life in an orphanage . . . Stillwater . . . San Quentin . . . that was the boy's life-pattern—one which ended with suicide in a Los Angeles alley. The man who took the body from the morgue and arranged a funeral was the close friend, says Mr. O'Brien, of a very rich and highly placed Californian whose face 'had a purple birthmark although plastic surgery had made it almost undetectable.' The story has set people to wondering."

Many have writen and made inquiries as to whether "Sidelights of Sadness" will be discontinued.

The answer is they will not.

For years, as I went about my duties on the Prison Board, I ran on human interest tales. In a great prison there are a milion stories and I have put away a great many. I made it a practice to make notes of the cases I was attracted to by their human appeal and I have great numbers of them. They will continue to appear in The Republican Press and, just as soon as I can get time I intend to pick out the best of those which have been printed in The Republican Press, polish them off and they will be published in book form.

They have already been spoken for.

MUCH WAS DONE BY THE BOARD

Supervisors Handled Unusually Large Lot Of Items

At the January and July sessions the board of supervisors generally transact more business than they do at their other sessions and last week was not an exception.

More Pay And More Help.

Chas. Kasch, chairman of the Mendocino County Probation Committee, presented a resolution passed by that board in which it requested the supervisors to fix the salary of the Probation Officer at $200 per month and to create the office of an assistant probation officer at $125 per month. The work of this office has increased greatly during the past few years and the suggestions have been recommended by the two last grand juries and others in a position to know present conditions.

Feur Taken From Roll.

Resolutions were passed releasing and canceling agreements under old age security with Rose Zumwalt, Sarah Folz and David Still and wife.

Splendid Office Rented.

The District Attorney was directed to prepare a lease between the county and Mrs. Minnie Jamison for the lease of the north half of the building located across the street from The Palace Hotel for use as offices of the Farm Advisor.

The District Attorney recommended the claim of Carl Enochs for $9 be rejected.

School Matters Attended To.

A temporary transfer from the general reserve fund to both the Willits and Ukiah union high school districts for the sum of $10,000 was made.

August 13 was the date set for hearing the petition of annexing the Little River to the Mendocino School District.

Several sums were transferred from the unappropriated reserve fund to other funds.

Commendable Project Advocated.

A delegation appeared and requested that the county take over the road to Leonard Lake in the Second district. Among the arguments made was that it would give better fire protection to adjacent timber land and also make that region accessible to people who desire an outing.

Round Valley Asks Consideration.

Senator George M. Biggar asked for financial co-operation for the building of the last bridge across a branch of Eel river a short distance east of

ALWAYS YOUNG

"Bill" Clarke, of Petrolia, was here Sunday enroute to Salinas where he will enter as a roper. Mr. Clarke, now 78 years of age, is one of the most remarkable horsemen. He sits erect, throws a wicked rope and is fast on his feet while running to tie a steer he has caught. He will be heard from at the Salinas Rodeo.

Appointment Held A Closed Incident

City Attorney Hale McCowen, Jr. has informed the city council that body acted entirely within its rights when it named Mrs. Wayne P. Burke the successor of Charles Kasch at the recent meeting and the matter is now a closed incident.

HUNTING CAMP BEING OPENED

Roy McCoombs Operates Commercial Outfit

Roy McCoombs will this season operate a commercial hunting camp on Hull Mountain, one of the best hunting spots in the Forest Reserve. Mr. McCoombs will take all the work off hunters' shoulders. He has horses, packers and camp men and guides are furnished by him at all times. The road to Hull Mountain camp is just 50 miles from Ukiah, by way of Lake Pillsbury, and is in good shape. If you go with Roy McCoombs, all you will need to get a buck is a rifle and, if you do not have one, Mr. McCoombs will likely loan you one. Mr. McCoombs can be reached by Telephone to Covelo or through Postoffice Box 268 in Ukiah.

VETERANS ARE MADE WELCOME

First Area Legionnaires Entertained By Veterans Here

Upwards of 100 Legionnaires from many parts of the First Area were here Sunday to participate in a get-together meeting and discuss Legion matters.

Had Fine Time.

Dancing, a barbecue and intermingling of old comrades passed the time quickly and delightfully. Instrumental music by Miss Kathleen Thurston, accompanied by Mrs. Katherine Harvey and a band concert by the Munipcipal band under direction of Prof. C. E. Roberts, added to the pleasure of the veterans.

Handled Events.

Walter Sandelin was active in making the stay here of the visitors enjoyable and Lewis White Post and Auxiliary aided in many ways.

Oscar G. Long Will Surprise Coveloites

In Round Valley people imagined Oscar G. Long was in San Francisco the past week seeing the Exposition. Mr. Long did just that, but he also annexed a charming helpmeet while away in the person of Mrs. Mary Priddy, of San Jacinto. The couple were married at the city hall in San Francisco Monday and yesterday Mr. and Mrs. Long were in Ukiah enroute to Covelo where the family home is to be.

PRESS WANTADS SOLD THE STOVE

Harry M. Burke had a gas stove for which he had no use and inserted a Wantad in The Republican Press. Forthwith there came a buyer and Mr. Burke made a satisfactory sale. Instances of this character occur every week. Press Wantads, because of wide circulation rarely fail to get quick, satisfactory results.

New Manager For The Safeway Store

Roy Smith, who has been manager of The Safeway Store here several years has resigned and will be succeeded by Martin J. Starke, who has been connected with the Safeway Stores some time and who comes here from San Rafael where he was very popular. The new manager's family will reach Ukiah within a short time — as soon as Mr. Starke is able to secure a proper residence in which to live—and become members of the community. Roy Smith, former manager has not yet announced his plans for the future.

ANOTHER ROBBERY

The summer home of Mrs. D. W. Douglas, of Santa Rosa, has been entered and robbed. No arrests have been made.

EMPLOYES OUTING

ANCIENT SPAN COLLAPSES AS TRUCK PASSES

Largo Bridge Could Not Support Giant Carrier

IT IS BEING REPAIRED

Crawford Ranch-Ukiah Highway Not Passable Now

The Largo bridge across Russian river was badly damaged late Thursday night, presumably by a heavily laden truck. This bridge was built in the horse and buggy days more than 50 years ago and was not designed for the heavy traffic it has recently had to bear.

Highway In Deplorable Shape.

Of course all motorists are aware of the fact the Redwood Highway in the vicinity of the Crawford ranch to Ukiah is now impassable and probably will be for several months to come. Much travel has been making a detour from Hopland to avoid this stretch of road now in course of construction and a lot of it passed over the Largo bridge.

Prompt Action Taken.

Supervisor Ed Haehl, in whose district the bridge is located, was immediately notified and while County Surveyor Ed Smith was eating breakfast the following morning Mr. Haehl called him up and told him to go down and post notices that the bridge was out of commission, which he did. What is called a needle beam, or in more common language a stringer, was broken and also some of the flooring of the bridge. Mr. Haehl has arranged for the necessary repairs to be made and they may be completed by the end of this week.

SORROW COMES UNEXPECTEDLY

Two Trips Of Father Were Of Entirely Different Kind

The infant daughter who was so gladly welcomed by Mr. and Mrs. Joseph Borgna, and so dearly loved by members of the Borgna and Winsby families, was taken from them July 9. Funeral services were held July 10 and the many lovely floral tributes were mute evidence of the affection and esteem of friends and relatives for the bereaved families. A comforting message was delivered by Rev. Elbert Holland.

General Sorrow Felt.

Little Beverly Ann was a granddaughter of Mr. and Mrs. James Borgna, and Mr. and Mrs. Walter Winsby of Redwood Valley, a sister of Delbert Phelps, and niece of Grant Winsby, Eveline and Gene Borgna and Elsie and Fello Garbocci. The sympathy of many friends is extended those who lost a little life so dear to them.

A Swift Change.

Two missions, one joyful and one sad, were made by Joseph Borgna within eight days. The first was the occasion of his coming from Susanville, where he is working at present, to visit his family in Redwood Valley and meet his new daughter, Beverly Ann, the first time. Upon his return to Susanville, he received word the infant was dangerously ill, and left immediately for Willits, where the baby was in the hospital. In spite of every care the infant could not be saved and passed away just five minutes after Mr. Borgna arrived.

GOT CONTRACT

The Ukiah Plumbing and Heating Co. was lone bidder for putting in the sewer section in Yokaya Heights and the council awarded the work on a $1,443.10 bid.

DAUGHTER IS INJURED

A Son Stricken With Pneumonia—Worst Believed Over

Special Correspondence of The Press

ANDERSON VALLEY, July 16.—Anderson Valley was host to the Mendocino County Granges Sunday when Pomona Grange met at Grange Hall at 10 a.m. and later a basket lunch was enjoyed in Hendy Woods. Barbecued lamb and coffee were prepared by the local Grange and Grange members from all over the county gathered at the long tables built beneath giant redwoods and laden with all the dainties that make picnics so popular.

Was Well Handled.

The afternoon was passed in games which were planned to cause much merriment among contestants and onlookers alike. Grange Master F. B. Cook was in charge of arrangements, O. C. Moore, Martin Silvers and C. O. Dightman barbecued the meat and prepared the coffee, Wilson Cook and F. W. Clark erected the tables, George Gowan put up the swings and Mrs. J. C. Edsall headed the hostesses who looked after the comfort of the visitors. Anderson Valley Grange enjoyed playing host and hopes it was an equally pleasant day for its many visitors.

To Treat Little Boy.

Mrs. Walter Stenback took her small son, Billy, to San Francisco Monday to have his hand cared for following an injury sustained at their camp at Indian Creek Mill July 3. Billy, who is four years old, got his hand under an axe his brother was using to pound a stake and X-rays taken in San Francisco disclose a broken finger in addition to lacerations which required nine stitches to close. The rest of his hand was not injured.

Hostess At Bridge.

Mrs. F. A. Rawles was hostess to members of her bridge club Wednesday at a luncheon followed by three tables of bridge. High score went to Mrs. C. A. Tarwater and consolation to Mrs. H. J. Cox. Those sharing in the afternoon's pleasures were Mrs. A. Ferrell, Mrs. Martin Silvers, Mrs. W. M. Brazill, Mrs. H. J. Cox, Mrs. Dudley Cable, Mrs. F. M. Patterson, Mrs. Neva Dennison, Mrs. C. A. Tarwater, Mrs. M. C. Gowan, Mrs. J. W. Reilly and Mrs. J. A. Brown, and the hostess, Mrs. F. A. Rawles.

Miss Elma Scaramella, of Point Arena, and Deryl Holloway, of this place, were married in Reno July 10. Mr. and Mrs. Holloway have taken an apartment at Boonville Lodge where the former is employed. Our best wishes are extended to them.

GOING TO FIND OUT

LEGAL PROCEEDINGS have been commenced in Appellate Court by A. R. O'Brien to test the right of Governor C. L. Olson to remove him as a member of the State Prison Board. The litigation is being prosecuted by Mr. O'Brien, individually, but, whatever termination follows, will apply to the other members of the Board ousted by the executive of California. The position of Mr. O'Brien is that, while he is but a symbol in the controversy and while the non-salaried position he occupied is an annoyance and an expense to one holding the position, Governor Olson assumed dictatorial powers when he ignored Judge Butler's restraining order and removed the board. While, of course, Governor Olson does not understand American methods of Government and will not recognize them, if he can avoid doing so, nevertheless there still is a Constitution in the United States and some one must try and uphold it. It will never do to permit Governor Olson to continue to run hog-wild.—He already has gotten the idea in his head he is Harry Bridges.

THE WEAKNESS OF ENGLAND

IT WAS TYPICAL of the British aristocracy to name the former Prince of Wales Governor of the Bahamas. It seems to be the policy of the English nobility to inflict its weaklings as rulers over its loyal citizens. There are strong men in the British Empire who should have been at the head of affairs preparing for a crisis which everyone knew was approaching. Instead an old man, who was scarcely able to pack the ancient umbrella he constantly carted about, was elected to lead the nation and now, not having learned a lesson from the disaster through which they passed, the British are selecting a figure whose chief bid for fame was to fall off a horse when it began to trot and be led around by a two-time divorcee who emerged from a Baltimore boarding house to snare the heir to the Kingdom of Britain. Too bad it is the fine British people do not shake off their old men of the sea.

BRIDGES AND DEPORTATION

(The San Francisco News-Letter)

POSSIBLY IT'S OUR INABILITY to comprehend the workings of a mind that we possibly should acknowledge to be equal to our own. Possibly, too, we're biased in our opinion; but that opinion is based upon observations that Representative Voorhis has not been in a position to share.

We're referring to Congressman Voorhis' objection to the deportation of Harry Bridges, of whom the same Mr. Voorhis says: "His influence within the labor movement has been . . . by no means always constructive."

You're right, Mr. Voorhis, in that conservative statement. You're right, too, when you state a great part of labor on the Pacific Coast would be benefited by his removal from this country.

Not only would the I. L. W. U. benefit to the extent it could regain the honor and self-respect which it sold for the monetary gains Bridges was supposed to have —and in this regard, we believe secured for them. They would have progressed, however, just as far under a leader who would trade performance and efficiency for wage increases and improved working conditions—but citizens would have regained a peace of mind not known since 1934.

Think of the laborers who have lost millions of dollars in wages through the senseless strikes dictated by this power-hungry alien!

Think of the trade lost by Pacific Coast business men, never to be regained!

Think of the operators who were forced to the wall by the unreasonable demands of this undesirable, their vessels forevermore removed from the commerce of our State!

Think of the wives and children who have been terrorized by the unholy goon squads of this destructive foreigner and the honest men who have been beaten and scarred by the clubs of these lustful killers.

Mr. Voorhis, your experience as a member of the Dies Committee has given you an opportunity to learn what type of man we are dealing with. He can be deported on almost any ground you may care to name because his unwholesome history is filled with heinous crimes against our people. His utterances are full of threats against our way of living. He is undesirable from every standpoint. Why do you not follow the mandate of your people and speed his departure?

The question of whether we are violating Harry Bridges' liberties is ridiculous. We feel his actions have deprived him of any standing and of any rights.

He is not a citizen, has not wanted to be one and never has acted as one.

Civil liberties have long been used in tolerant America as an umbrella to be held over the heads of those who would indulge in subversive and destructive activities.

The subversivists flaunt the law at every opportunity, but cry for its protecting folds when enmeshed in the skeins of their own duplicity.

We love this land of ours, Mr. Voorhis, just as much as you do.

We want to make it safe for honest people who accept responsibilities in proportion to their liberties.

But we want its blessings reserved exclusively for those who are pro-America; for those who realize that civil liberties are but the fruit of the tree of civic responsibility.

We cannot, in these times, afford the luxury of pampering distorted social views and fallacious reasoning.

We, the people, have given the go-ahead signal for the embarkation upon a program designed to protect the freedom for which our ancestors fought.

We, too, have a fight on our hands today; a fight against treacherous fifth columnists who would, if allowed to, turn our great country over to dictators.

Let us deport every one of them and turn our thoughts toward a defense of America—Americans—Americanism!

REPUBLICANS ARE HOPEFUL

Republicans of the First Congressional district met here Sunday and listened to addresses by Albert Beecher, Chairman of the Republican Campaign committee of this district. He urged full support of the whole Republican ticket by party men and reproved those who would split their support.

Wants Progressives.

Attorney Chas. Kasch, looked on as a likely successful contender for the judgeship in this county at the next election, spoke for more progressive leadership and retirement of the old guard which had controlled, to the detriment of the organization, the destinies of the party in the past. Some 50 local Republicans attended the meeting which was held at The Palace Hotel Sunday.

Sidelights of Sadness

Being incidents connected with California's State Prisons as observed by A. R. O'Brien, editor of The Republican Press, while chairman of the State Board of Prisons of California.

THE SUSPICION OF ANTONIO CORDOVA

When word gets around "The Chinaman is in town" the prison population gets jittery and the guardline goes on its toes, for "The Chinaman is in town" expression, in the vernacular of the prisoners, means dope, in some form, has gotten inside the walls. The yen for a bindle gets under the skin of the old hopheads and hundreds of inmates become restless (although they may not have ever been dope users) to get a crack at it.

One has no idea how many men in San Quentin and Folsom, while free, have been users of dope, in one form or another. Look at the cases of those who have been sent to the penitentiaries for violent crimes and you will see drugs have been behind a startling number of offenses. Following a drinking spree, if a man has a gun, and gets "hopped up" with dope, there is no telling what he will do and, unfortunately, once a man gets to be a real junker, there is never a cure. Of course you will hear the claim advanced there is a hope for dope users, but I have never seen an instance where a complete desertion of heroin, morphine or opium, once the habit has been contracted, has really been recorded. On the other hand I have known peddlers of dope, men and women who have been connected with the mind, body and soul destroying stuff—degenerate people who sell it constantly —who are so afraid of it nothing on earth could induce them to use it and, I have been told, there is almost as much fascination connected with peddling it, as there is said by fiends, to be obtained in using it.

I got to prison one morning while the search for narcotics was on. None had been found, although hundreds of cells and suspected inmates had been "shook down." The grapevine came into the warden's office Antonio Cordova had been discovered by another prisoner, who had tipped him off, furtively examining a small wrapped-up package. Antonio did not talk much English and the Warden suggested I remain in the room and interpret for him. I did so. The Mexican had been visited by his wife two days before and he appeared exceedingly upset when I began to talk to him. As we went along I told Antonio his wife had been at the institution and had an interview with him. That, the guards believed, narcotics had been smuggled in and that he had been seen unwrapping a small package.

I have observed men possessed by fear, rage and grief and I have watched the strange transformation of control that sometimes overcomes them . A paroxysm of this kind seized the prisoner. He worked the nails of his fingers into the flesh of his hand; small beads of perspiration came out on his forehead and cheekbones. His eyes filled with tears and he sobbed quietly, at short intervals.

I took it for granted Antonio feared a search and, believing we had best get it over with, I said: "Antonio, you have a little package, wrapped up in your back pocket; would you let me have it?"

He made no answer, but, in his extended hand he offered me a soiled handkerchief, made into a small square object. As I opened it Antonio came over and both of us looked down at it. When I came to the last turn in the handkerchief, he said, "Mi esposa is givee to me. He is die Sunday." All the handkerchief contained was a picture of a little, black Mexican girl in a cheap, white dress, lying in a coffin!

Letters To The Editor

Ukiah, July 9, 1940.

A. R. O'Brien, Editor.

I must commend you on your broad views on religious liberties. I am mailing you a timely article that I feel will interest you. I myself think that saluting the flag should be voluntary and feel that it is mistaken patriotism to make such a gesture compulsory, as a number of our states have done. An oath means nothing to a traitor, but to a deeply religious person it means the forfeit of his right to eternal life in this instance. So, what choice is left but to disobey such a law and take the consequence. I was always taught that our beautiful flag was the emblem of freedom but some of our legislators are making of it an instrument of oppression. Our Constitution guarantees the liberty to worship God as our conscience dictates.

YOUNG LADY'S SUICIDE JUMP NERVOUS QUIRK

Handsome Beulah Vie Foster Victim Of A Collapse

LEAPED OFF A FERRY

Covelo Girl's Recovery Is Certain—Latest Report

Carried from page 1

Hospital for a nervous breakdown, after which she returned to Covelo to convalesce with her devoted parents. Miss Foster's classic musical qualities and education come from her talented mother. It is sad, Beulah Vie, for only a few brief hours, was lonely and thought of death—for life holds much for her, a brilliant pupil. Friday Mr. and Mrs. Foster were able to move her from the hospital.

His Death Mourned.

The death of Claud D. Jamison at Stockton July 7 brought sorrow to the younger set of Round Valley as well as many relatives and friends. Claud was born in Covelo November 19, 1921. He was the son of Clay and Thelma Jamison, but the following year, on November 27, the lovely young mother passed away. He then was cuddled in his grandmother's home, Mrs. Ida Cyrus Hollingsworth, until her death April 28, 1936, giving him loving care. During the remaining four years of his young life, he was welcomed in the home of an aunt, Mrs. Molissa Gravier, the M. C. Hurts and others, while he continued high school studies, and last fall went to Stockton where he has been with his father.

Buried In Ukiah.

Final rites were held at Ukiah July 10, Rev. Herbert Brooke officiated. Mrs. Ina Branson was soloist and Mrs. Gladys Richey was at the organ. Interment was in Ukiah cemetery. Beautiful and lavish were the floral tributes of sympathy. Claude's cousins and classmates carried the handsome casket to the grave—Cecil Hart, Lawrence Hurt, Willard Brush, Luis Feigin, Charles Firebaugh, Covelo, and James Holzhauser, Ukiah, were pallbearers.

He was a member of Covelo Baptist church and was baptized February 17, 1929.

I think not of tomorrow,
Its trial or its task;
But still, with childlike spirit,
For present mercies ask.
With each returning morning,
I cast old things away:
Life's journey lies before me—
My prayer is for today.

Were At Funeral.

Among relatives and friends attending the sad rites were Mr. and Mrs. Laurence Hurt, an uncle, Tod Hurt, Edith Walters, Mrs. Caleb Brush, Mr. and Mrs. M. E. Gravier, Mr. and Mrs. M. C. Hurt, Mr. and Mrs. G. H. Ells, Miss Imogene Lovejoy, Mrs. Graydon Finfrock, Covelo, Mrs. Arthur Lyons, Cloverdale, Mrs. Lena Hurt Dart, Willits. Surviving family members are Clay Jamison, Stockton, and Miss Bernice Jamison, a sister, Sacramento.

Celebrate In Covelo.

The Frontier Days celebration took most of Round Valley's population to Willits, but a few family groups were centent to enjoy the Fourth at home. Out at Horse Camp in the National Forest, among the cool pines, a picnic circle included Mr. and Mrs. Caleb Brush and lovely young granddaugater, Sandra Williamson, Mr. and Mrs. Rolly Gray, Mr. and Mrs. Chas. Bucknell, Mr. and Mrs. Elmer Bucknell and Glenn and the Mervin Fosters.

Recalled The Past.

Rolly Gray entertained with long ago songs, accompanying himself on the guitar. Needless to say the tables groaned with fried chickens and many other rich delicacies.

In Marin County.

Mrs. N. C. Bringham, who has been a popular member in the T. F. Spurlock household the past six months, is vacationing at Larkspur, a guest in the A. E. Woods home. The lovely lady will also visit friends in Oakland, San Francisco shops and return to Covelo with Treasure Island feet.

Owned Jewelry In Ukiah Years Ago

Enroute to Fort Bragg, Mr. and Mrs. Leonard Schnell, one-time residents of Ukiah, stopped here for a brief visit Monday. With them were their daughter, Iola, and son Leonard, Jr. Miss Iola is a graduate of University of California and is engaged in optometry. Twenty-one years ago Mr. Schnell was in business in the location now known as Roberts & Bowers Jewelry Store, and for nine years the family home was here. Mrs. Schnell declares they still think of Ukiah with a great deal of warmth, and remember many friends made during happy years passed here.

IT'S A BOY

Mr. and Mrs. Ernest Meyers are rejoicing over birth of a son at Ukiah General Hospital. Dr. L. K. Van Allen is in charge of the case.

Barn Was Afire.

Shortly after returning from a pleasure and business visit to Ukiah, H. C. Tuttle discovered chopped hay in the big fine barn on fire. Immediately a crew of men were on hand and through the night and following day they worked hauling and channeling out the burned masses. Chopping hay from the field when too green seems to be thought the cause. The temperature in most of the channels was 260 degrees and the danger point is 190 degrees.

Did His Stuff.

According to all reports I have gathered the bucking horse owned by R. T. Hurt gave an excellent performance at the Willits Frontier Days celebration and was considered the best bronc to come out of the chutes.

To See Exposition.

As last year, Mr. and Mrs. Geo. Woods have their plans made for two weeks to be passed on Treasure Island. They will be guests of Rev. and Mrs. W. E. Gray at Redwood City.

Called On Patient.

Senator and Mrs. G. M. Biggar called on L. J. Lane at Upper Lake Hospital Tuesday, after which they were overnight guests at Adams Springs. Mrs. Arthur Biggar was a recent guest in the Biggar home.

Given Lodge Honor.

Floyd Long, popular head of the fine Upper Lake Ranger Station and plant, was installed as Noble Grand of I. O. O. F. No. 241 at a public installation last week.

Have A Boy.

Mrs. Alfred Heavener, of Branscomb, recently presented her husband with an eight and one-half pound son at Howard Memorial Hospital, Willits, Dr. Raymond A. Babcock attending. This is the young couple's third offspring.

While Contractor C. G. Fish is building a fireplace in the mountain lodge of Capt. and Mrs. J. B. Smith at the old Ranger Station, Mrs. Fish arranged an attractive camp on Eel river for their convenience and comfort. Mrs. E. C. Hart and two children of San Francisco are their guests two weeks.

What Is This?

According to lively rumors, Oscar Long has found his way to the altar. More information to follow later.

Called On Friends.

Passing the holiday and weekend in Willits and Ukiah were Mr. and Mrs. H. C. Tuttle. On the Fourth they were among a picnic group of guests who enjoyed the surroundings and new home of Mr. and Mrs. Bob Corbett at Willits. They weekended at Ukiah, houseguests of Mr. and Mrs. Geo. W. Davis.

Doctor Was Handy.

At Ruth, Trinity county, Mrs. Arthur Jeans, who recently suffered a stroke of paralysis, is reported slightly better. A Los Angeles specialist, who was fishing on Mad river, rendered medical services. C. G. Fish and Mrs. Frank Short and handsome Frank, Jr., made a brief visit to Ruth for the purpose of seeing the sister of the two ladies.

Dr. and Mrs. J. E. Mooy were in town from Upper Lake Thursday and Sunday of last week.

Mrs. Nora Rodebaugh is visiting friends at Eureka.

For two weeks, Miss Myrtle Katherine Rohrbough has been a guest of friends at Fresno.

our refreshment emporiums and when the bartender refused to trade him a drink for a coil of wire he became abusive. The man was sentenced to 30 days in the county jail and his record is being investigated.

Two Accident Victims.

A woman was killed and her daughter was so seriously injured that she died while being brought to Howard Memorial Hospital. Mrs. Marguerite Studer, 41, and daughter, Marilyn, 13, were the victims and they were on their way from their home in Los Angeles for a visit with relatives in Oregon. The accident took place near Gill's Airport in Leggett Valley and their car ran over the grade and plunged down into the canyon for a distance of about 100 feet. The mother was killed outright but when assistance arrived the girl was still alive but died from the effects of an internal hemorrhage while being brought to the hospital. Both mother and daughter received several injuries any one of which would have caused death. The remains were prepared for interment and shipped to Portland, Oregon, where Mrs. Studer's mother resides.

Defective Flue Caused Loss.

The two-story home of Mr. and Mrs. James Ford was burned to the ground with its contents Saturday afternoon. The cause of the fire is unknown but is presumed to have been from a defective flue. There were several women in the house at the time but when the discovery was made all they could do was to make their escape.. A crew was sent out from the forestry department and they kept the fire from spreading to adjoining buildings and the surrounding brush and timber.

Mr. and Mrs. O. H. Roelle and family will move to Arizona shortly and they were given a reception by Willits Chapter, O. E. S., at the last meeting.

Mr. and Mrs. R. L. Waling came up from San Francisco to visit Mrs. Waling's mother, Mrs. F. Belio. They were accompanied by Mrs. M. C. Garner, of Madrid, Spain.

Mr. and Mrs. Will Collier visited the San Francisco Exposition last week.

Improving Property.

Victor Wood is making some necessary repairs on his home on East Oak avenue. The estimated cost is $300.

Visitors From Watsonville.

Mr. and Mrs. G. F. Holloway, former residents, were here for the celebration and were guests of Mrs. D. G. Case. They had not been here for some years and were favorably impressed with improvements made in Willits. They have returned to their home in Watsonville.

In The Sierras.

Mr. and Mrs. Robert Allison and children are taking an outing at Lake Tahoe.

Enjoyed Rare Vacation.

Mrs. Margaret Durrett and Miss Pierina Fracchia have returned from an auto trip that extended as far north as British Columbia. Mrs. Durrett retired recently after nursing at Howard Memorial Hospital for 10 years and this was her first real vacation during this period.

Chopped His Foot.

Jack Casey, aged 15, accidentally struck his foot with an axe and severed practically all of the tendons of his right foot. The accident took place near Ukiah and Dr. Babcock is caring for him at Howard Memorial Hospital. Young Casey is a son of Mrs. Lillian McWaters.

Scalded At Ice Plant.

Jack Spangle received first degree burns about the abdomen and legs when a boiler accidentally discharged, spraying him with hot water. He is employed at the ice works and it was there the accident took place. The injured man is at Howard Memorial Hospital under care of Dr. R. A. Babcock and late reports are progress is satisfactory.

Came Together On Curve.

Cars driven by Bertram Alexander of Kansas City, Kansas, and Robert Hansen of Tacoma, had a head-on collision a short distance north of Longvale and near Irvine Lodge. The accident took place on the long, blind curve and Traffic Officer Fred Hamilton, who made the investigation, reports Mr. Hansen was traveling too fast and was a little on the wrong side of the white line. Both cars were damaged but neither of the occupants were injured. The Hansen car was repaired at the scene and the other car was brought to Willits for repairs.

Newlyweds Back To Visit.

Mr. and Mrs. Merrill Dill, newlyweds and former residents, came here from their home in Vallejo to attend the celebration and visit relatives and friends.

Former Utility Magnate Visits.

Clay Hopper arrived from Concord last week and is supervising repairs on his house. Some years ago he had charge of the local water company and is very well known here.

Country Alumni Convene.

The annual picnic of the alumni of the old Sawyers school will be held at the Cook grove, Sunday, July 28. This was one of the first schools organized in this county more than 60 years ago and former pupils are now scattered all over the west. Some of these former residents make it a point to attend these picnics and renew acquaintances.

Grass Fire Caused Worry.

A grass fire on the N. W. P. railroad right-of-way in the south part of town caused a lot of smoke and excitement Saturday. Fire Chief Elwin Van Cleemput and his fire force made a quick response and soon had the fire surrounded and under control. It is presumed the blaze was started by a spark from a locomotive.

Escape Was Miraculous.

Mr. and Mrs. Victor Weisse, of Fort Bragg missed death by a narrow margin when their car crashed through the railing of the bridge near the Helm sawmill in Jackson Valley and dropped about 20 feet to the bottom of the creek and turned over. Mr. Weisse, the driver, was facing the sun, which temporarily blinded him, and this was the cause of the accident. Strange to relate the occupants were not seriously injured other than to be badly shaken up and the car was not badly damaged. A tow car from Laytonville pulled the auto out and the Weisse family returned to their home in Fort Bragg.

Leg Broken By Runaway Horse.

Joe Andrriata was kicked by a horse on the Triangle G ranch near Hearst. The animal bolted and ran away and finally crashed into a tree and Mr. Andriata's left leg was broken. He was brought to Howard Memorial hospital where Dr. Babcock is attending him. He was riding a hay rake when the accident happened and when going down an incline the equipment bumped into the horse and scared it.

Mr. and Mrs. Jesse Fairbanks came up from Petaluma to visit relatives and attend the celebration.

Mr. and Mrs. Lloyd Ferguson and children have moved to Eureka.

Gets More Time For Hunting.

The Andy Bowman ranch at the north end of Long Valley has been sold to B. H. Roark. This 3000-acre ranch has been owned by the Bowman family more than 50 years and is a splendid stock ranch. Andy Bowman is now past 80 and he and Mrs. Bowman have moved to Laytonville. Mr. Bowman is a famous varmint hunter and he with his well trained dogs are out in the hills almost continuously in search of depredators.

Making Ornate Vegetable Stand.

H. M. Tanem has leased a portion of Mumm Reid's lot near what is known as the "Townsend well" and is having a one-story stucco structure erected which he will use for a vegetable stand.

Legion Wants A Band.

Willits Post, American Legion, elected officers at the meeting last week. Leland Cureton was chosen commander; Harl Roberts, first vice-president; Fred Sowash, second vice-president; Basilio Quadrio, chaplain; Fred Foord, service officer; Jack Elliott, historian; D. T. Bennitt, finance officer, and Walter Moore, sergeant-at-arms. Following the election the matter of organizing a municipal band was discussed and it now looks very much as if this project will be successful for the Legion has a number of good musicians while others can be secured from among younger town boys.

Among The Ailing.

At Howard Memorial Hospital—Jerry McCarty who was injured when a team of horses ran away, has been released and returned to his home in Eden Valley; Laurence Eklon, who was injured by a fall from a train, has been removed to Highland Hospital, Oakland. He has a fractured hip and was taken down by ambulance. A baby boy was born to Mr. and Mrs. Albert Page. THE TRUTH SIMPLY TOLD
Today's popularity of *Doan's Pills*, after many years of world-wide use, surely must be accepted as evidence of *satisfactory* use. And favorable public opinion supports that of the able physicians who test the value of Doan's under exacting laboratory conditions.
These physicians, too, approve every word of advertising you read, the objective of which is only to recommend *Doan's Pills* as a good diuretic treatment for disorder of the kidney function and for relief of the pain and worry it causes.
If more people were aware of how the kidneys must constantly remove waste that cannot stay in the blood without injury to health, there would be better understanding of why the whole body suffers when kidneys lag, and diuretic medication would be more often employed.
Burning, scanty or too frequent urination sometimes warn of disturbed kidney function. You may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel weak, nervous all played out.
Use *Doan's Pills*. It is better to rely on a medicine that has won world-wide acclaim than on something less favorably known. *Ask your neighbor!*

NEW PASTOR RECEIVES WARM WELCOME

To honor Rev. Herbert Brooke and family, a lovely program was arranged at the Methodist church Thursday evening, when a large crowd gathered to welcome the newcomers from Oroville. Flowers from the gardens of Mesdames Arthur Stipp and Fred Leonard provided a pretty setting for the party, at which a social hour was enjoyed after the varied and splendid entertainment. Mrs. Nat Beckley announced the speakers, first of whom was Rev. Elbert Holland, who delivered the opening prayer, after which Misses Ernestine and Mildred Prather offered two duets, "Hills of Home" and "Nearest and Dearest," Miss Ernestine playing the piano accompaniment. Rev. W. Theo Matlock then gave a delightful address of greeting to the new Methodist minister and family and this was followed by Mrs. Ina Branson's singing of "In the Garden of My Heart" and "I Love a Little Cottage," both accompaniments being played by Mrs. Katherine Harvey. A welcome was then extended the honor guests by Dr. R. A. Van der Las, speaking with his usual warmth and sincerity, after which the program was concluded with "Until the Dawn" and "Story of a Tack," sung by male quartet members Will Van Dyke, K. E. Paddock, S. E. Mitchell and P. H. Joseph. In response to the program of welcome, Rev. and Mrs. Brooke spoke to their new-made friends, thanking them for the reception and told of their pleasure in their new home. Refreshments were served by the ladies of the church.

Her sole attendant, Miss Grace Welch, wore aqua lace and the flowers were pink roses and carnations. Bruno Franceschi attended as best man. CHRYSLERS IN THE LEAD NOW

Remarkable Jump In Popularity Seen In Figures

Fifty-seven million dollars spent in engineering and production development during the past 15 years! That's the unusual record of the Chrysler Corporation, according to Dick Andrews, Chrysler-Plymouth dealer here. "When the first Chrysler was built in 1924," declared Mr. Andrews, "the engineering and research facilities at our factory were housed in a three-room laboratory in a small wooden building. Since that time, Chrysler's continued emphasis on the basis of sound engineering in building motor cars has resulted in the consistent expansion of engineering and research laboratories. Recently, in celebration of the fifteenth anniversary of the founding of the Chrysler Corporation, two new engineering and research laboratories were opened, which practically doubled the space previously devoted to these important facilities. In the new building are 94 laboratories, offices and test rooms for practically every conceivable scientific use.

They Were First.

"This emphasis on engineering has gained Chrysler its leadership in the industry," continued Mr. Andrews. "From the minds and imaginations of Chrysler engineers came the first all-steel body, hydraulic brakes, floating power, redistribution of weight, automatic overdrive, airflow styling, as well as scores of other features which have contributed to the progress of the industry at large. Chrysler's newest contribution, fluid drive, has brought an entirely new sense of freedom and ease in the operation of an automobile. With Fluid Drive it is possible to put the car in high gear when you leave the garage in the morning, and drive all day without touching either clutch or gear shift."

Now Are First.

Andrews & Ford point out that figures released by the Chrysler Corporation show retail deliveries of Chrysler cars in the first two weeks of June established an all-time high for this period.

Miss Mary Purdy was a San Francisco visitor last week.

Lady Doesn't Choose To Be Incarcerated

Emma Quarteroni, of Willits, was turned over to the custody of the sheriff last week when she went on the warpath after partaking of too much firewater, it is alleged, and attacked another lady from Humboldt county, according to report. Probably she didn't like the sheriff or, perhaps, her quarters at the county detention home were not to her liking as she quietly made her get-away during the night. Judge A. M. Sacry, of Willits, has issued a warrant to arrest the woman again.

BROTHER-IN-LAW DIED

Henry, Charles and George Heckendorf and their sister, Mrs. Lillie Joslin, all of Coyote Valley and their brother Will Heckendorf of Willits were called to Chico last week by the sudden death of their brother-in-law, Scott Shearer. Mrs. Shearer will probably be remembered locally by her maiden name of Emma Heckendorf. Mr. Shearer was here recently and his death was unexpected and caused by heart trouble. He was 51 years of age.

DO YOU REMEMBER WHEN THESE EVENTS TOOK PLACE IN UKIAH?

Out Of The Past Occurrences Brought To Mind By Reporter Of The Republican Press To Recall Old Times

(By Fred Loring)

Do you remember the time when not only cured hams and bacon but thousands of head of hogs were shipped from Mendocino county to San Francisco? Nowadays most of the ham and bacon is shipped here from San Francisco and enclosed with fancy covering, but it costs more than twice as much as the kind we used to have and is no better.

They Ran Wild.

Before the turn of the century and for a few years later there were actually thousands of hogs roaming the hills of this county. Some of the hogs were marked by having slits in their ears, but most were what used to be called "slick ears" or wild hogs and many of the people of those days grew up on slick-ear pork. It was not considered wrong to kill a slick-ear for everybody did it and this meat was much better, in a great many respects, to the pork we now have.

They Ate Snakes.

Hogs have the reputation of being filthy animals, for they can survive under unsanitary conditions but when they run wild in the hills they are as clean as all other animals. In those days their most objectionable habit was that of killing and eating rattlesnakes. Hogs are not afraid of rattlesnakes for, on account of their blood circulation, they are not poisoned even when they are struck by the snakes. Wild hogs fight with rattlesnakes and kill and eat them. One of their other favorite foods was poison oak, but this did not affect their meat.

Gave Meat Flavor.

In those days there were many more acorns than there are now and in the fall of the year it was not at all uncommon for acorns to be a foot deep under the trees. Hogs and most other kinds of animals fattened on these acorns but most species of oaks had acorns that made soft meat. When killed these acorn-fed hogs provided about the sweetest and most tender meat but the bacon instead of being white and hard such as we now have was filled with oil and yellow in color. This bacon, in hot weather, used to drip oil, and large tin pans were placed beneath the bacon to catch the oil. The hams and other portions of the meat were very sweet and tender and not like the pork we now have.

Spoiled By Fish.

Of the domestic meat animals there is probably no other animal whose meat is so affected by the food they eat. The writer well remembers, when he lived in Lake county, about their pork. In those days the ranchers bordering Clear Lake allowed their hogs to feed in the tules adjacent to the lake and these hogs also ate dead and live carp. When these hogs were killed their meat smelled of fish and was so strong and disagreeable one could not stay in a kitchen where the meat was being cooked. It was so bad white people would not eat it and it was given to the Indians.

Killed In Fall.

Long ago days in the late fall or early winter was hog killing time. Every rancher had some hogs and when the time arrived several of his neighbors would come over and assist. After the hogs were killed, soaked in hot water and cleaned they were cut up and the meat allowed to cool. Following this the meat was cut and vast quantities of pork sausage, head cheese and the best spareribs anyone ever ate, were put away for future consumption. Every rancher had a smokehouse in which the hams and bacon were hung to be cured. Even then there was a difference about what kind of smoke was best for pork, for pork is also affected by the smoke. In Mendocino county pepperwood chips were considered the best but oak and corn cobs were also good. After the meat was cured the rancher brought his surplus to town and sold it to Charles Hofman and other dealers in general merchandise. This meat was placed in a large screened compartment and townspeople when they made their purchases could buy any quantity they desired. Of course the pork did not have fancy wrappers that we are now used to, but the price was less than half what we now pay and the meat was probably better. Both the rancher and the merchant made a fair charge on the transaction and everybody was satisfied.

Shipped On Foot.

Up to about 35 years ago large droves of hogs were brought to Ukiah on foot for shipment to San Francisco. This always took place in the early winter and about 10 miles a day was as far as they could travel. It took about five days to bring a drove of hogs from Round Valley and the hog dogs the drivers were obliged to own were valued up to $150 for drovers could not get along without them. These dogs could go anywhere in the brush hogs could and were so well trained no hogs were lost, even when such long drives were made.

They Made Money.

The ranchers who raised and sold these hogs also did well for hogs are very prolific and their care was next to nothing.. In those days our general merchants carried their customers for months at a time and most patrons made settlement twice a year. Any rancher living within a radius of 25 miles of Ukiah and who was personally known, could make out an order on a slip of paper and either mail it or have it delivered to the merchant and the goods would be sent out by the next freight team. Of course there was always some loss on account of death, sickness or other unavoidable circumstances but, as a general rule, people were honest and met all their obligations. In those days there was more faith in humanity than there is now.

Chief Executive Officer Wm. Shackleton was here from Santa Rosa headquarters of the Board of Equalization yesterday.

Wheel shields come with the two-tone jobs and are included in the slight extra cost. CP-630

TELLS OF TOWN OF EARLY DAYS

A Sacramento Visitor Was Here When Forest Grew

Alex Crockett came over from Sacramento last week to cool off, even if it was a little warm here. Mr. Crockett was telling about his parents locating in Ukiah in 1878. It was only a small village then. He remembers when Ukiah's then few stores were located on Main street and all of the freight was hauled by teams from Petaluma.

Present Main Section A Forest.

Mr. Crockett says that part of town west of court house square in those times was vacant and covered with a dense growth of madrones and oaks. Mr. Crockett is one of the oldest continuous subscribers of The Press and says he could "hardly get along without it." He passed the best part of his life in Mendocino county and cannot get used to living elsewhere.

WHAT IS MALT?..

and how is it used in making beer and ale?

BARLEY

Answer: Brewers' malt is barley that has had its starches modified. The barley is first permitted to "sprout" by the addition of moisture. At the right instant, the growth is checked by heat and the sprouts are removed.

What remains is malt... the essential base of all good beer and ale.

Every step in the brewing of good beer and ale has been taught by centuries of experience. Today, amazingly expert brewers — using only the purest ingredients — make beer and ale the mild, tasty, wholesome beverages that they are.

Now the brewing industry is taking action to keep the *retailing* of beer as wholesome as beer itself. A plan to eliminate abuses is already in effect in a number of states. It is being extended. Ask us for an interesting *free* booklet.

Use Lots of Milk

A false idea of economy
Would be the milk to stint,
So wise and thrifty budgeteers
May take this friendly hint:

Milk is economical
From every point of view,
Dietetic authorities
Give reasons,—more than few.

Of dentists, ninety-two per cent
Have a calcium prescription,
Nothing simpler in the world.—
Milk meets that description!

The medical profession, too,
Pays homage to the cow.

Let MITCHELL send it now!
